The information contained in this presentation is for information purposes only and does not constitute or form part of, and should not be construed as, any offer or invitation to sell or issue or any solicitation of any offer or invitation to purchase or subscribe for any units ("Units") in Keppel Infrastructure Trust ("KIT") or rights to purchase Units in Singapore, the United States (including its territories and possessions, and state of the United States of America and the District of Columbia) ("United States"), European Economic Area, Canada, Japan, Malaysia, Thailand, Australia or any other jurisdiction. This presentation is strictly confidential to the recipient, may not be relied upon by any other party or for any other purpose, reproduced, retransmitted or further distributed to the press or any other person, may not be reproduced, redistributed, passed on or otherwise disseminated or quoted, directly or indirectly, in any form and may not be published, in whole or in part, for any purpose to any other person in your organisation or elsewhere without the prior written consent of the Trustee-Manager (as defined hereinafter). This presentation should not, nor should anything contained in it, form the basis of, or be relied upon in any connection with any offer, contract, commitment or investment decision whatsoever and it does not constitute a recommendation regarding the Units.

The past performance of KIT is not necessarily indicative of its future performance. Certain statements made in this presentation may not be based on historical information or facts and may be "forward-looking" statements due to a number of risks, uncertainties and assumptions. These "forward-looking statements" may be identified by their use of words like "plans", "expects", "will", "anticipates", "believes", "intends", "depends", "projects", "estimates" or other words of similar meaning and that involve assumptions, risks and uncertainties. All statements that address expectations or projections about the future and all statements other than statements of historical facts included in this presentation, including, but not limited to, statements about the strategy for growth and expansion plans are forward-looking statements. Predictions, projections or forecasts of the economy or economic trends of the markets are not necessarily indicative of the future or likely performance of KIT. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements due to a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, competition from similar businesses and governmental and public policy changes, and the continued availability of financing in the amounts and terms necessary to support future business. Such forward-looking statements speak only as of the date on which they are made and KIT does not undertake any obligation to update or revise any of them, whether as a result of new information, future events or otherwise. Accordingly, you should not place undue reliance on any forward-looking statements. No assurance can be given that such future events will occur, that such projections will be achieved, or that such assumptions are correct.

Prospective investors and unitholders of KIT ("Unitholders") are cautioned not to place undue reliance on these forward-looking statements, which are based on the current view of Keppel Infrastructure Fund Management Pte. Ltd. (as trustee-manager of KIT) ("Trustee-Manager") on future events. No representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information, or opinions contained in this presentation or otherwise made available nor as to the reasonableness of any assumption contained in this presentation; and none of KIT, the Trustee-Manager, their advisers or representatives or any of their respective directors, officers, partners, agents, employees, representatives or advisers of any of the foregoing assumes any responsibility or liability therefore (including in respect of direct, indirect or consequential loss or damage) howsoever arising whether directly or indirectly from any use, reliance or distribution of these materials or its contents or otherwise arising in connection with this presentation. Nothing contained in this presentation is, or shall be relied upon as, a promise or representation, whether as to the past or the future and no reliance, in whole or in part, should be placed on the fairness, accuracy, completeness or correctness of the information and opinions contained herein. Further, nothing in this document should be construed as constituting legal, business, tax or financial advice.

The information in this presentation is a summary only and does not purport to contain all of the information that may be required to evaluate any potential transaction of the Units, any recipient should conduct its own independent analysis of KIT and its business, including through the consultation of independent legal, business, tax and financial advisers by such recipient. The information is subject to change without notice, its accuracy is not guaranteed, has not been independently verified and may not contain all material information concerning KIT. The information set out herein may be subject to updating, completion, revision, verification and amendment and such information may change materially. The value of Units and the income derived from them may fall as well as rise. Units are not obligations of, deposits in, or guaranteed by, KIT, the Trustee-Manager or any of its affiliates and/or subsidiaries. An investment in Units is subject to investment risks, including the possible loss of the principal amount invested.

Investors have no right to request the Trustee-Manager to redeem their Units while the Units are listed. It is intended that Unitholders may only deal in their Units through trading on Singapore Exchange Securities Trading Limited ("SGX-ST"). Listing of the Units on SGX-ST does not guarantee a liquid market for the Units.

The information contained in this presentation is not for release, publication or distribution outside of Singapore (including to persons in the United States) and should not be distributed, forwarded to or transmitted, directly or indirectly, in or into United States, European Economic Area, Canada, Japan, Malaysia, Thailand, Australia or into any jurisdiction where to do so might constitute a violation of applicable securities laws or regulations.

This presentation is not for distribution, directly or indirectly, in or into the United States. No Units are being, or will be, registered under the U.S. Securities Act of 1933, as amended ("Securities Act"), or the securities laws of any state of the United States or the securities laws of Malaysia or Thailand, or other jurisdiction and no such securities may be offered or sold in the United States, Malaysia or Thailand except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and any applicable state or local securities laws or the securities laws of Malaysia or Thailand. No public offering of securities is being or will be made in the United States or any other jurisdiction.

Rationale for the Acquisition

1

Largest bus operator in Victoria and a core pillar of Melbourne's transportation landscape

2

Attractive market with favourable tailwinds

3

Defensive cash flows with cost indexation and capital reimbursement

4

Platform of scale to capture growth opportunities

5

Accretive acquisition that strengthens KIT's portfolio resiliency

6

Electrification thematic supporting KIT's ESG targets

1. Largest Bus Operator in Victoria with best-in-class performance

Core pillar of Melbourne's transportation landscape

- Largest share of **commuter bus services** market in Victoria
- Fast-growing **private bus charterer** in Victoria, serving numerous schools and supporting tourism and general charter
- **Consistent Market leader** in reliability¹ and punctuality² metrics

Market leading performance KPIs

1. Reliability refers to the actual number of bus service kilometres provided by the operator as a percentage of the total bus services kilometres scheduled to be provided by the operator.

2. Punctuality refers to the total number of on-time services delivered as a percentage of the total number of services scheduled.

2. Attractive Market with Favourable Tailwinds

Buses: An essential transport link between Melbourne's fastest growing regions

Melbourne

Australia's largest fast-growing city

Buses provide significant coverage of Melbourne metropolitan area

Key Growth Drivers

A

Residential development

Continuing growth in mass-transit bus service kilometres is expected to be driven by residential developments in outer suburbs

B

Acceleration of commercial & transport infrastructure spend

Victoria's 'Big Build': The Victorian Government is looking to invest in road and rail projects across the state

C

Bus reform and network optimisation

The Victorian Government aims to boost passenger experience and deliver network and operating efficiencies

3. Defensive Cash Flows with Cost Indexation and Capital Reimbursement

Majority of revenues derived from long-term, inflation-protected government contracts

> 80% of revenues
from MBSCs¹

Long-term contracts

10 years

(8+2) year contract term²

Provides stable EBITDA
and cash flows with
performance incentives

Cost-indexed
payments

- **Fixed payments; inflation-protected**
 - No farebox and patronage risk
 - Stable revenue based on service delivery cost plus a fixed margin
 - Contract payments indexed to relevant inflation indices (i.e. CPI, fuel index, labour index)
 - Incentive payments for meeting performance measures

Capital
reimbursement

- **Return of and on capital expenditures**
 - Reimbursement for capital expenditure on fleet acquisitions and depots
 - Receive access payment for usage of depots

1. Metropolitan Bus Service Contracts (“MBSCs”).

2. MBSCs are long-term (8+2 years), inflation-protected government contracts. These contract were entered into in 2018 for 8 years till 2026, with an automatic 2-year extension up to 2028 if certain key performance measures are met.

4. Platform of Scale to Capture Growth Opportunities

Accelerate growth within existing business and adjacent verticals

Capture upsides within key regions

1

Increase service kilometres

Continue growing government contracted service kilometres via new, expanded and more frequent routes

2

Optimise service efficiency

Improve efficiencies through achieving incentive payments based on service excellence, cost base optimisation, and electrification-related benefits

Leveraging technology for vertical and horizontal growth

3

Grow new revenue streams

Unlock ancillary revenues such as on-demand bus service

4

Differentiating on technology

Drive sustainable advantage from strength of existing platform (proprietary safety and route planning applications)

Strategic expansion

5

Additional electrification revenue

Opportunities to monetise unutilised charging capacity at electrified depots for ad-hoc third-party usage¹

6

Increase charter / private market share

Strengthen and expand the business, maximising Ventura's share of the charter hires within the region it operates

1. Charging for ad-hoc usage of unutilised charging capacity at electrified depot (e.g. trucks, emergency services, etc.)

5. Accretive Acquisition that Strengthens Portfolio Resiliency

Assets under Management ("AUM")

1. Based on the enterprise value of the Ventura Group of approx. A\$600 million (approx. S\$540 million). The expected AUM contribution to KIT of the Acquisition is expected to be approx. S\$533 million, based on KIT's 98.6% share of the Ventura Group after the Acquisition. The enterprise value of the Ventura Group has not been independently valued. Based on KIT's AUM of S\$8.1 billion at 2 January 2024, which is based on the AUM Portfolio valuation.
2. Please refer to paragraph B6 of Circular to Unitholders on the assumptions used in the preparation of the pro forma financial effects of the Acquisition and the Equity Fund Raising.
3. Based on audited consolidated financial statements of the KIT Group for FY2023.
4. Excludes effects of the capital optimisation at Ixom which was distributed as special distribution to Unitholders.
5. Assuming all Distributable Income generated by the Targets will be distributed to KIT and minority shareholders. The pro forma DPU set out herein should not be interpreted as being representative of the future DPU. Assuming cash distribution received from the Targets, net of corporate expenses, is fully distributed to Unitholders.
6. Assumes the issue of approx. 849.3 million Units at the Illustrative Issue Price (being S\$0.471 per New Unit) pursuant to the Equity Fund Raising.
7. Based on DPU declared for FY2023, excluding special distribution of 2.33 cents paid in November 2023.

6. Electrification Thematic Supporting KIT's ESG Targets

Ventura is the first mover for energy transition in Victoria's public transportation sector

Owns and operates Victoria's first fully electric bus depot

Key partner in the Victorian Government ZEBs trial, responsible for **delivering >50% of the trial buses**

Clear pathway for electrification and aims to convert 25% of fleet to electric buses by 2030

Electrification leader in Victoria with 27 ZEBs

Strictly for illustrative purposes only, to show what KIT's pro forma carbon intensity for FY2023 would have been assuming that the Acquisition and Equity Fund Raising was completed with effect from 1 January 2023 and KIT held the interests acquired pursuant to the Acquisition through to 31 December 2023. KIT's pro forma carbon intensity for FY2023 is based on KIT's Distributable Income for FY2023 and Ventura's distributable income as calculated on the bases and assumptions set out in paragraph B6 of the Circular. Based on the scope 1 and 2 carbon emissions for KIT and Ventura for the financial years ended 31 December 2023 and 30 June 2023 respectively.

KMC CTA Extension and Capital Restructuring

Keppel Merlimau Cogen
Plant

Overview

Keppel Merlimau Cogen Plant

- Located on Jurong Island, and connected to Singapore's electricity transmission network, the KMC plant is well positioned to support the surrounding industries with their electricity, steam supply and demineralised water requirements
- Under the terms of the CTA, KMC receives an availability-based capacity fee in return for making available the KMC Plant's electricity generation capacity and a fixed operation and maintenance fee
- The terms of the CTA are designed to ensure that the costs of planned maintenance of the KMC Plant, fuel costs and fuel availability risk to run the KMC Plant are borne by KE.

Support decarbonisation of the power sector

Enhance KMC's performance and efficiency, including getting the plant **hydrogen-ready**

- **Description:** Approx. 1,300 MW combined cycle gas turbine power plant
- **KIT's ownership interest:** 51%
- **Customer:** Keppel Electric Pte. Ltd ("KE")

KMC CTA Extension and Capital Restructuring

Allow KMC to resume Distributable Income contributions to KIT

Extension of CTA and OMSA by 10 years

- ✓ KMC continues to receive Capacity Fees of up to S\$108m p.a. from 2030 to 2040¹
- ✓ Extension of OMSA ensures the continuous and reliable operations of the plant

Optimise KMC's capital structure

- ✓ Allow KMC to refinance its External Facility and lengthen its debt amortisation profile
- ✓ Letter of Credit to meet any debt service/ maintenance reserve account requirements under the New External Facility
- ✓ Capital Injection (to be fully funded from KIT's operating cashflow) to optimise working capital and overall cashflow returns

Resume Distributable Income contributions to KIT

Pro forma
Distributable Income
\$241.6m²
Up 10.9% from \$217.8m³

Pro forma DPU
Up 11%
Up from 3.86 cents³ to
4.28 cents²

1. On the basis that (i) for every month from 1 July 2030 to 30 June 2040, KMC meets its availability target and (ii) KMC I and KMC II are retrofitted such that they retain their original generation capacities of 500MW and 840MW respectively up to 2045, such that the quantum of the Capacity Fees from 1 July 2030 to 30 June 2040 remains unchanged.
2. For illustrative purposes only and based on the bases and assumptions set out in paragraph C8 of the Circular, assuming that the KMC Capital Restructuring was effected as at 1 January 2023, KMC would have contributed approx. S\$23.8 million in Distributable Income to KIT for the financial year ended 31 December 2023. The actual contribution from KMC to the Distributable Income of KIT for the financial year ended 31 December 2023 is nil. This is because the External Facility commenced amortisation on 30 June 2023, and the cashflows generated by KMC in the financial year ended 31 December 2023 were not sufficient to cover both the KMC Notes interest payment and the amortisation of the External Facility. This effectively negated any Distributable Income received by KIT from KMC through the interest payments on the KMC Notes for the financial year ended 31 December 2023. Please refer to paragraphs C2 and C8.1 of the Circular for further details.
3. Based on audited consolidated financial statements of the KIT Group for FY2023 and excludes effects of the capital optimisation at Ixom.

Growth and Value Creation

German Solar Portfolio

Market Outlook

Infrastructure: Driving Sustainable Development

Resilient sector amid market turmoil..

- **Investor appetite for infrastructure assets is expected to remain strong amid uncertain macro backdrop**
- **Listed infrastructure has historically produced above-average returns in inflationary environment with stronger inflation-linked cash flows and profitability**

... powered by the Energy Transition sector

- **US\$4.6 trillion in global energy transition and grid investments** e.g. renewables, EV, carbon capture, are required annually between 2023 and 2030 for the world to get back on track to net zero¹
- **Accelerate EV adoption:** Governments globally have introduced incentives and regulations to spur demand for EVs and curb transport-related emissions

.. and transit towards the circular economy

- **Continued demand for waste to energy (WTE) and water desalination technologies,** underpinned by the growth in urban population, industrialisation, and climate change

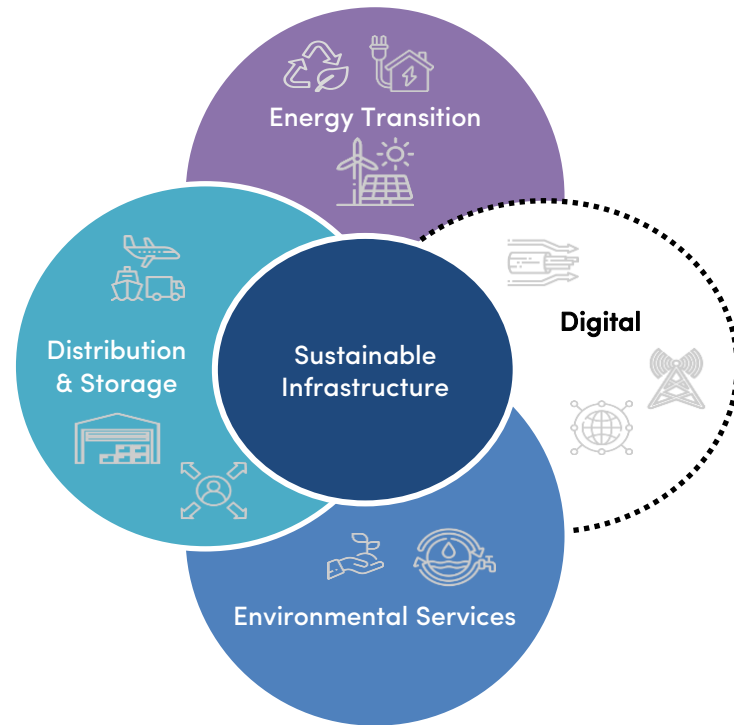

1. BloombergNEF estimates

Continued Focus on Growth

Leveraging on the Sustainable Infrastructure theme

- 1** Focus on developed markets in APAC and Europe; opportunistic for the rest of the world
- 2** Optimise portfolio through asset recycling, unlocking value to **grow evergreen portfolio**
- 3** Leveraging **Sustainable Infrastructure theme** for growth:
 - Energy Transition & Climate Change
 - Rapid urbanisation & ageing population
 - Digitalisation

- Actively pursue third party evergreen businesses and yield-accretive investments

Near-term pipeline

Acquire 100% economic interest in **Keppel Marina East Desalination Plant**

European Onshore Wind Farm pipeline: 6 consented projects (486 MW)¹ and 8 additional projects (660MW)¹

Potential investment in **up to 1 GW** of Jinko Power's **solar farm and energy storage projects**

1. As of 31 Dec 2023. Consented projects are pipeline projects that obtained all permits. Additional projects include other onshore wind development projects in Sweden or the UK owned and controlled directly or indirectly 100% by FORAS which have a reasonable prospect of reaching FID within 5 years from the entry into the Subscription Agreement.

Drawing on Keppel's Deep Engineering and Operating Capabilities

Operator-oriented DNA: Strong emphasis on value-adding and active management

Global Solutions

Leveraging Keppel's strong technical expertise and proven operating capabilities to provide solutions for the world's most pressing challenges

30 years'

Infrastructure investment, development and management track record

Energy Infrastructure

- Developer of Singapore's 1st independent power project, Keppel Merlimau Cogen (1.3GW)
- ~2.6GW renewable energy portfolio¹
- Developing Singapore's 1st hydrogen-ready advanced CCGT (600MW)
- Keppel's Infrastructure Division is a pioneer retailer of gas and electricity in Singapore
- EV charging solutions provider in Singapore
- Keppel's Infrastructure Division is the 1st and largest district cooling systems developer and service provider in Singapore

Environmental Infrastructure

Water Reuse & Wastewater Solutions

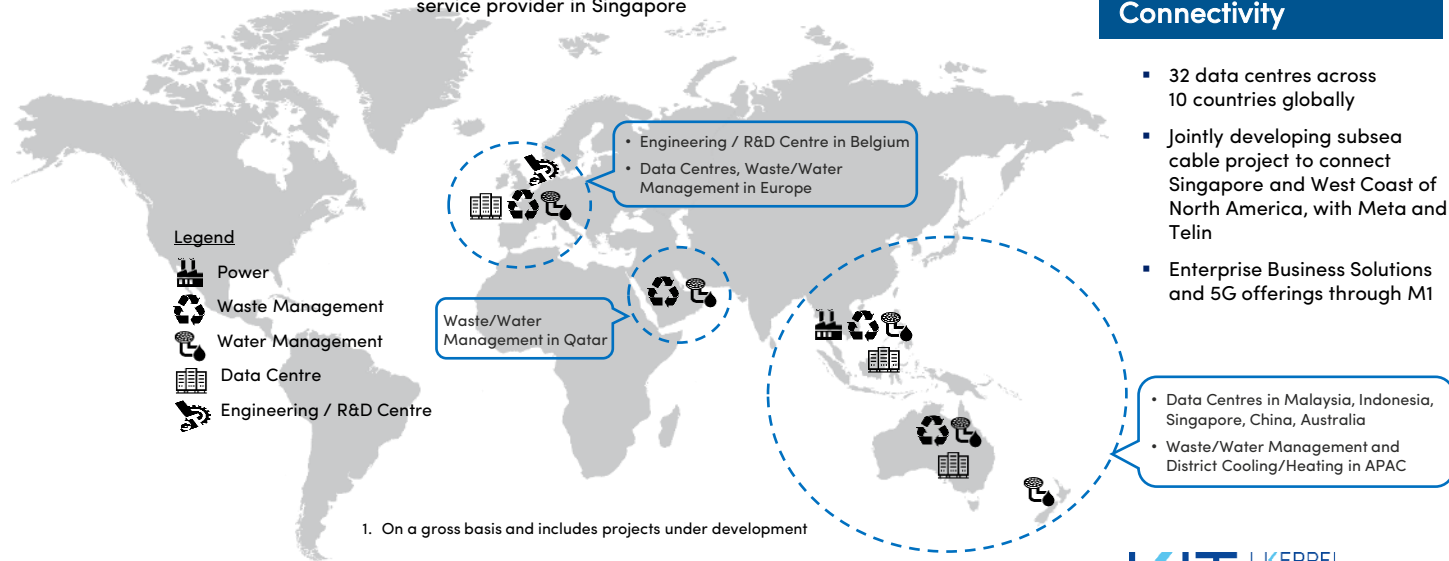

- Extensive range of wastewater treatment and water recycling solutions for all types of municipal and industrial effluent
- Water treatment production capacity of over 300,000m³/day

Waste-to-Energy (WTE)

- >100 WTE projects & 150 WTE lines across 17 countries and 4 continents
- ~40% of Singapore's municipal incinerable waste

Connectivity

- 32 data centres across 10 countries globally
- Jointly developing subsea cable project to connect Singapore and West Coast of North America, with Meta and Telin
- Enterprise Business Solutions and 5G offerings through M1

Business Updates: Energy Transition

- **City Energy**
 - Expanded product offerings with the acquisition of TSH's LPG business, the second largest LPG cylinder distributor in Singapore, allowing City Energy to grow into a new market
 - Exclusive rights to extend EV charging services to ~20,000 carpark lots in private residential and mixed developments
 - Higher income from mandatory annual gas inspections following 2023 Gas Act amendment
- **KMC:** Lower availability of 95.8% due to unplanned outage; operations resumed in Dec 2023
- **BKR2:** Granted additional capacity of 26 MW; output capacity to increase to 486MW with upgrading works
- **European Onshore Wind Platform:** Achieved commercial operations of Fäbodliden II (17 MW) in Dec 2023
- **German Solar Portfolio:** Completed first closing comprising 53,500 installed solar panel systems in Jan 2024; remaining 6,500 systems to be completed by Jun 2024 in phases. Total Generation Capacity of 585 MW when completed
- **Aramco Gas Pipelines Company:** Demand underpinned by economic growth and favourable demographics as part of the Kingdom of Saudi Arabia's efforts to reduce carbon emissions

Business Updates: Environmental Services

- **EMK**
 - Maintained high availability and full utilisation of incineration capacity
 - Higher volume for landfill business: Secured new contracts from blue chip customers
 - Seeking growth opportunities through accretive bolt-on acquisitions
- **Singapore waste and water assets**
 - Fulfilled all contractual obligations
 - Extended concession of the Senoko WTE Plant with Singapore's National Environment Agency (NEA) for 3 years with an option to further extend by up to another year: DI contribution will not be significant as KIT is only funding a small portion of the refurbishment capex
 - Ongoing discussions with regulators to explore the extension of the SingSpring Desalination plant

Business Updates: Distribution & Storage

- **Ixom**
 - Strong volume and pricing across coagulants, caustic and sodium hypochlorite in Australia
 - Increased volume from the industrial and dairy segments of the New Zealand business
- **Philippine Coastal**
 - Tank utilisation rate of almost 100% as at end-Dec 2023, underpinned by increased demand and robust outlook
 - Secured renewal of a major customer contract at attractive pricing for 4 years with option to extend for another 5 years
 - Execution of new pricing strategy to drive revenue and enhance margins
 - Tank storage capacity expansion works on track for completion by 2H 2024

1. KMC's full year computed DI is negated by the mandatory debt repayment in Jun 2023.
2. Comprises Trust expenses and distributions paid/payable to perpetual securities holders, management fees and financing costs. The higher costs were due to higher management fees from the capital optimisation of \$131.2m in the Group's 2H2023 Distributable Income, the issuance of the Series 4 Medium Term Notes in May 2022 and draw down of equity bridge loans to fund the acquisitions of EMK and BKR2 in 2H 2022.
3. Including capital optimisation at City Energy, total value creation proceeds will be \$273m.

Capital Management

Well-diversified debt maturity profile with healthy capital management metrics

- Obtained \$100m in corporate loan facilities in 4Q 2023 to support 2024 acquisitions
- Reviewing KMC's capital structure to allow the plant to resume contributions to KIT
- Mitigating impact of currency fluctuations: 67% foreign currency distributions hedged

Sustainability at the Core

On track to achieve ESG targets

- Progressing on decarbonisation roadmap with reduction in carbon emissions intensity and increased exposure to renewables; continue to promote workplace diversity and develop human capital

1. Excluding capital optimisation gains and associated management fees in FY 2023, KIT's reduction in carbon emissions intensity from 2019 would be 7%.
